To whom it may concern;

It was a pleasure and a unique opportunity for Russian audience to welcome Gijs van Wulfen at Strelka Institute for Media, Architecture and Design in frames of Strelka summer public programme.

Lecture of Gijs was one of the most useful and worth visiting lectures at Strelka institute this summer. Gijs gives a vision on how to become an innovator and shares his practical approach in a very interactive and personal way. Strelka public programme audience consists of people of different professions and backgrounds and the lecture was equally interesting to all of them.

I certainly recommend Gijs van Wulfen as a public speaker and a subject matter expert on innovations and innovative approach to the projects and companies.

With best regards,

Maria Biryukova
Executive director of public programme
